

## **Construction Notice Remaining Large Concrete Pour Schedule Landmark Hotel Project**

The Landmark hotel project, located at 595 Industrial Road, 810 East San Carlos Avenue and 850 East San Carlos Avenue, has recently completed site grading and soil stabilization. The project is entering the next phase of site preparation which includes completing two back-to-back concrete pours that will require early morning starts. The contractor will also be removing two Iron Bark (Eucalyptus) trees along Industrial Road.

### **Scheduled concrete pours:**

Tuesday (11/8/16) and Wednesday (11/9/16) from 7:00 a.m. until 6:00 p.m.

### **Scheduled tree removal:**

Monday (11/7/16) and Tuesday, (11/8/16)

**What to expect:** Modified construction hours for the two concrete pour days will be 7:00 a.m. to 6:00 p.m. There will be approximately 37 concrete trucks over the course of each day. Approximately four to five concrete trucks will be staged at one time along East San Carlos Avenue, immediately adjacent to the site. The early start is essential due to the volume of concrete being poured each day.

There should be little disruption to morning traffic and flaggers will be on site during this entire effort. Traffic control will also be in effect along Industrial Road during the tree removal.
