Consider Deconstruction over Demolition! See page 4.
WHAT DOES C&D STAND FOR?
Construction and Demolition.

WHY IS IT IMPORTANT THAT CONSTRUCTION WASTE BE RECYCLED?
A lot of natural resources can be saved by recycling C&D waste, which makes up 29% of the trash going into the landfill.

DO ALL THE CITIES HAVE THE SAME RECYCLING REQUIREMENTS?
No. All cities require a minimum of California Green Building Standards Code (CALGreen) detailed below. A local ordinance may have more stringent requirements and may have different penalties. Refer to the chart on pages 2-3 for details on a specific city.

WHAT ARE THE CALGreen REQUIREMENTS?
CALGreen Required Projects:
- Renovations, remodels or additions to an existing structure that increases the building's conditioned area, volume, or size
- The construction of a new permitted structure
CALGreen Recycling Requirements:
- Recycle and/or salvage for reuse a minimum of 65% of the nonhazardous C&D debris
For more information or other specific requirements visit www.bsc.ca.gov/Home/CALGreen.

WHY AM I ASKED WHAT CITY MY WASTE CAME FROM?
The State requires each city and unincorporated county to reduce waste through recycling, composting or other diversion activities. Landfill and transfer station gatekeepers ask where the waste is coming from to gather information to report to the cities or county.

WHAT ARE INERT MATERIALS?
Inert solids or aggregates include asphalt, brick, concrete, dirt, fines, rock, sand, soil and stone.

WHAT IS A MIXED C&D RECYCLING FACILITY?
At a mixed C&D recycling facility, different recyclables are sorted from a load of mixed debris. A load of mixed C&D generally includes drywall, metal, untreated wood, yard trimmings and small amounts of inert materials. Large amounts of inerts should go into "rock boxes."

WHAT DOES OX MOUNTAIN LANDFILL ACCEPT FOR RECYCLING?
Ox Mountain Landfill accepts loads of certain materials for reuse on site. These materials are: asphalt, bricks, concrete, dirt, fines, rock, sand, soil, stone, untreated wood and yard waste. Loads with untreated wood and/or green waste mixed with inerts (asphalt, brick, concrete, dirt, fines, rock, sand, soil and stone) will not be sorted and therefore not recycled. However a load with mixed inerts only (asphalt, brick, concrete, dirt, fines, rock, sand, soil and stone) or mixed green waste only (untreated wood and yard trimmings) will be accepted for Alternative Daily Landfill Cover.

HOW DO I MAKE SURE MY RECEIPTS SHOW THAT I RECYCLED MATERIALS?
First, you must make sure that you are taking your load to a facility that can recycle the materials you have. When you are at the gate of any facility, be sure to tell them that you would like to recycle the material and the name of the city or unincorporated county location it is from. You will need a receipt that reflects this information. The receipt will indicate that the material was either recycled or disposed.

WHAT IF A DEBRIS BOX COMPANY HANDLES ALL MY WASTE?
To meet local recycling requirements, you will need to request that the debris box company take your waste to an approved recycling facility and provide you with appropriate receipts from those facilities.

WHAT DO I DO ABOUT THE WASTE GENERATED BY MY SUBCONTRACTORS?
The general contractor or applicant is responsible for ensuring that the recycling requirements are met for all waste generated on site, including waste generated by the subcontractors.
UNDERSTAND CITY C&D RECYCLING REQUIREMENTS
Most cities in San Mateo County have a recycling ordinance that requires contractors to recycle most waste generated on the job. Some cities may limit building contractors to a few approved recycling facilities and debris box companies. According to the CALGreen State Code, where a local jurisdiction does not have a construction and demolition waste management ordinance, a construction waste management plan shall be submitted for approval to the enforcing agency. See pages 2-3 to view San Mateo County and city requirements.

DECONSTRUCTION, SALVAGE & REUSE
Many items such as wood floors, doors, windows, electrical equipment, and bathroom fixtures can be salvaged from a building before it is demolished. You can take these usable materials to a salvage yard, where they will be resold to local builders. See page 4 to determine if salvage is appropriate at your site.

IDENTIFY HAULING OPTIONS
You may either haul your own recyclable materials or hire a debris box company and request that the material be recycled. Note that in some cities you may be required to use a certain debris box company. See page 2-3 to view city requirements and page 5 for a list of debris box companies.

RECYCLING
Waste generated at a construction site can be recycled in two ways. One option is to separate recyclables by material, such as cardboard, metal, clean wood, etc. into individual bins. Separating recyclables allows you to take advantage of lower dumping fees. The second option is to put recyclable materials into one bin and take it to a recycling facility that specializes in sorting materials. See pages 6-7 for a list of C&D recycling facilities in the Bay Area.

HAZARDOUS AND UNIVERSAL WASTE
Many types of hazardous and universal waste are found at construction and demolition sites. These materials must be identified and handled correctly prior to demolition and during construction. See pages 8-9 to find a list of potential wastes and where to take them.

DISPOSAL
Any waste that cannot be reused or recycled is disposed. See page 10 for disposal locations.

RECYCLING HOTLINES FOR ALL BAY AREA COUNTIES
This guide is brought to you by the County of San Mateo Office of Sustainability, which offers recycling and reuse information to the residents and businesses of the County. See page 8 for recycling hotlines in other Bay Area counties.

* Inert solids include asphalt, brick, concrete, dirt, fines, rock, sand, soil and stone.  
** Fines or penalties may apply for non-compliance.
DECONSTRUCTION, also referred to as SALVAGE or SOFT DEMOLITION, is a cost-effective and environmentally responsible alternative to conventional building demolition.

In a deconstruction, hazardous materials are removed, reusable building materials are salvaged, demolition materials are recycled and only a small portion of waste ends up in the landfill.

To successfully deconstruct a building for salvage, you may have a soft demolition contractor identify and remove the usable material or you may extract the material and drop it off at a salvage yard. Please take special care to identify and remove any electrical components that may contain mercury such as lights, thermostats, and switches. These must be treated as hazardous waste.

Examples of reusable building materials:
- Architectural details (columns, fireplace mantels, moulding)
- Brick & block
- Doors & windows
- Electrical equipment
- Heating ducts
- Light fixtures
- Lumber
- Plumbing fittings
- Plumbing fixtures (faucets, toilets & bathtubs)
- Siding
- Steel beams & studs
- Wainscoting

FIREWOOD FARMS
551 San Mateo Road (HWY 92)
Half Moon Bay, CA 94019
650-726-3266
www.firewoodfarms.com
Deconstructs old barns and sells flooring and other salvaged wood products.

PLACEMAKERS, INC.
1062 Center Street
San Carlos, CA 94070
650-273-7530
www.placemakersinc.com
Accepts and sells salvaged materials. Provides deconstruction service.

REUSABLE LUMBER COMPANY
La Honda
650-529-9122
www.reusablelumber.com
Will deconstruct homes for usable wood or pick up wood from construction sites.

THE REUSE PEOPLE
9235 San Leandro Street
Oakland, CA 94603
888-588-9490
www.thereusepeople.org
Accepts and sells a wide variety of salvaged building materials. Provides deconstruction services.

WHOLE HOUSE BUILDING SUPPLY & SALVAGE
San Mateo
650-218-8596
www.driftwoodsalvage.com
Accepts and sells used building materials and runs salvage sales at individual homes they are deconstructing.

**SALVAGE YARDS**

BUILDING RESOURCES
701 Amador Street
San Francisco, CA, 94124
415-285-7814
www.buildingresources.org
Accepts and sells a wide variety of salvaged building materials.

C & K SALVAGE
10115 Denny Street
Oakland, CA, 94603
510-569-2070
Accepts and sells salvaged building supplies. Focuses mostly on lumber.

HABITAT FOR HUMANITY GREATER SAN FRANCISCO RESTORE
1411 Industrial Road
San Carlos, CA 94070
650-847-4000
www.habitatgsf.org/restore
Accepts and sells new and gently used building materials.

OHMEGA SALVAGE
2407 San Pablo Avenue
Berkeley, CA 94702
510-204-0767
www.ohmegasalvage.com
Accepts and sells vintage architectural salvage mid-century and older.

URBAN ORE
900 Murray Street
Berkeley, CA 94710
510-841-7283
www.urbanore.com
Accepts and sells a wide variety of salvaged building materials.

---

KNOW YOUR WASTE
When you use a debris box company, you need to request that your C&D materials be recycled and receipts can be provided. Key questions to ask when selecting a company are:

- What recyclable materials are you willing to pick-up?
- Do you offer a reduced fee if recyclables are separated from other waste?
- What are your requirements for separating recyclable materials?
- How much contamination do you allow?

The following areas have exclusive contracts with specified debris box companies or only allow registered debris box companies: Brisbane, Colma, Daly City, Hillsborough, Millbrae, Pacifica, San Bruno, South San Francisco and certain Unincorporated San Mateo County areas (El Granada, Miramar, Montara, Moss Beach, Pillar Point and Princeton). All other cities may use any of the following companies that haul mixed loads and sorted materials in San Mateo County.

* Also has debris boxes for hazardous waste.
A **SORTING FACILITY** specializes in sorting recyclable construction material. Mixed C&D loads can include all the materials listed below, and the majority of it will be recycled. Large quantities of inert solids (asphalt, concrete, dirt) should be kept separate from mixed C&D loads.

- **Offers portable crushing services.**
- & foam padding
At a construction site it is very important to be aware of hazardous material so you can separate it from other waste and properly dispose of it.

Prior to a demolition, it is necessary to identify and remove hazardous wastes. You should also be prepared to manage hazardous waste generated during construction and at the end of the project.

HAZARDOUS WASTE ACCEPTED BY THE VSQG PROGRAM
- Ballasts
- Caulk containing PCBs
- Cleaning supplies
- Fluorescent light bulbs and tubes
- Garden chemicals
- Glues, mastics, adhesives
- Oils
- Paint chips (Paint removed from projects conducted before 1980 contain lead)
- Paints, thinners, stains
- Pesticides, herbicides
- Pool chemicals

HAZARDOUS WASTE NOT ACCEPTED BY THE VSQG PROGRAM
- Appliances
- Asbestos
- Pressure-treated wood
- Railroad ties
- Telephone poles

For more information on where to recycle items that are not accepted by the VSQG program call our toll free hotline at 1-888-442-2666.

PROPER DISPOSAL OF HAZARDOUS WASTE

SAN MATEO COUNTY HAZARDOUS WASTE - VERY SMALL QUANTITY GENERATOR (VSQG) PROGRAM
A VSQG (per state law) is any business that generates less than 100 kilograms (about 220 pounds or 27 gallons) of hazardous waste per month. The VSQG Program is designed to provide an inexpensive hazardous waste disposal option to eligible businesses, non-profits, and other government agencies. See the list of accepted materials to the left.

Visit www.smchealth.org/vsqg for details. Call 800-207-8222 to make an appointment at the next collection event. Minimal fees.

TRANSPORTING HAZARDOUS WASTE
Legally, you can only transport up to 10 gallons of hazardous waste at one time without a special license and permit. Qualified VSQG businesses may legally carry up to 27 gallons or 220 pounds of a hazardous waste for disposal to the VSQG Facility.

You may also select a hazardous waste management company to collect and haul hazardous waste for you.

IF YOU DO NOT QUALIFY FOR THE VSQG PROGRAM
If your business generates more than 100 kilograms of hazardous waste per month, you will need to find the appropriate commercial hazardous waste management company to handle your material. Companies that provide this service may be found by visiting www.smchealth.org/vsqg or by contacting the County’s Hazardous Materials Program at 650-372-6200.

PAINT RECYCLING
Paint (interior/exterior), primers, stains, sealers and clear coatings (e.g., shellac and varnish) can be recycled at many locations throughout the Bay Area. For a complete list of products that can be recycled and the locations to bring it to, visit: www.paintcare.org or call toll free 888-442-2666.

LOCATIONS IN THE BAY AREA TO DISPOSE OF:
- Asbestos
- Pressure-treated wood
- Railroad ties
- Telephone poles

ALTAMONT LANDFILL
10840 Altamont Pass Road
Livermore, CA 94551

KNOW YOUR WASTE

UNIVERSAL WASTE

PROPER DISPOSAL OF UNIVERSAL WASTE

Hazardous waste regulations designate a category of hazardous wastes called universal waste. California’s Universal Waste Rule allows individuals and businesses to transport, handle and recycle certain common hazardous wastes, termed universal wastes, in a manner that differs from the requirements for most hazardous wastes. The more relaxed requirements for managing universal wastes were adopted to ensure that they are managed safely and are not disposed of in the trash.

WHAT ARE UNIVERSAL WASTES?

Universal wastes are hazardous wastes that are widely produced by households and many different types of businesses. Universal wastes include televisions, computers and other electronic devices as well as batteries, fluorescent lamps, mercury thermostats, and other mercury containing equipment. See complete list in the column to the left. For more information visit www.dtsc.ca.gov/hazardouswaste/universalwaste.

LOCATIONS IN THE BAY AREA THAT WILL RECYCLE UNIVERSAL WASTE FOR A FEE:

AERC
30677 Huntwood Avenue, Hayward
www.aerc.com
510-429-1129
• Batteries
• Electronic devices
• Fluorescent light bulbs and tubes
• HID lamps

CROWN COMPUTER RECYCLING
520 Bragato Road, San Carlos
www.crowncomputerrecycling.com
650-591-0600
• Electronic devices

E-CYCLE ENVIRONMENTAL
1937 Davis Street, San Leandro
www.ecycleenvironmental.com
510-865-9137
• Electronic devices

GREEN CITIZEN
1831 Bayshore Highway, Suite 2
Burlingame
www.greencitizen.com
650-493-8700 x103
• Electronic Devices

QUICK LIGHT RECYCLING, LLC
Brisbane
www.quicklightrecycling.com
415-596-2305
• Batteries
• Fluorescent light bulbs and tubes
• HID lamps

REVOLT RECYCLING
657 143rd Avenue, San Leandro
www.revoltrecycling.com
510-352-2665
• Batteries
• Electronic devices
• Fluorescent light bulbs and tubes
• HID lamps
• Mercury containing devices

ZARC
26 South Linden Avenue
South San Francisco
www.zarcrecycling.com
650-871-7327
• Electronic devices

At a construction site it is very important to be aware of universal waste so you can separate it from other waste and properly dispose of it.

Prior to any renovation, it is necessary to identify and remove universal wastes. You should also be prepared to deal with universal waste generated during construction and at the end of the project.

If a nonresidential project is ≥ 1000 sq. ft. or ≥ $200,000, be prepared to report on how the waste was managed.

UNIVERSAL WASTE ACCEPTED BY THE VSQG PROGRAM FOR A FEE

• Batteries
• Fluorescent light bulbs and tubes
• High Intensity Discharge (HID) Lamps:
  • metal halide lamps, sodium vapor lamps and electric lamps that contain added mercury
• Non-empty aerosol cans that contain hazardous waste
• Any mercury waste:
  • thermometers, pressure or vacuum gauges, dilators and weighted tubing, rubber flooring, gas flow regulators, counterweights and dampers switches and thermostats

UNIVERSAL WASTE NOT ACCEPTED BY THE VSQG PROGRAM

• Electronic Devices:
  • Televisions, VCR and DVD Players, computers, computer monitors, cathode ray tubes (CRTs), and cellphones

For more information on where to recycle items that are not accepted by the VSQG program call our toll free hotline at 1-888-442-2666.
**DISPOSAL**

Materials that are NOT RECYCLABLE and NOT HAZARDOUS should be taken to a DISPOSAL facility.

Examples of disposable materials may include:
- Bagged waste
- Damaged flexible ductwork
- Dirty drop cloths
- Foam
- Insulation
- Mixed composite materials
- Vinyl flooring
- Visqueen

**DISPOSAL FACILITIES**

**BLUE LINE TRANSFER STATION**  
500 East Jamie Court  
South San Francisco, CA 94080  
650-589-4020  
www.ssfcavenger.com

**OX MOUNTAIN SANITARY LANDFILL**  
12310 San Mateo Road  
Half Moon Bay, CA 94019  
650-726-1819  
www.republicservices.com

**PESCADERO TRANSFER STATION**  
Bean Hollow Road at Artichoke  
Pescadero, CA 94060  
650-592-2411  
(Open Friday - Sunday)

**SHOREWAY ENVIRONMENTAL CENTER (SAN CARLOS TRANSFER STATION)**  
333 Shoreway Road  
San Carlos, CA 94070  
650-802-8355
