RADIOACTIVE MATERIAL REMOVED FROM SAN CARLOS HOME

San Carlos, CA – Officials from the California Department of Public Health have collected and removed radioactive material from a shed in the backyard of a home on the 1000 block of Cedar Street that was reported yesterday. The material is being transferred to a secure state facility outside of San Mateo County. There is no threat to residents.

Cedar Street from Brittan Avenue to Arroyo Avenue has reopened. Authorities will be identifying the material and investigating the actions that led up to today’s event.

For further information about this material, contact Ephrime Mekuria, Associate Health Physicist, California Department of Public Health, at (510) 620-3422 or (510) 306-8383.
