San Carlos, CA — In response to the impacts of the COVID-19 pandemic, the City of San Carlos enlisted the assistance of the Community Foundation of San Carlos to help with its Neighbor to Neighbor Program. The Community Foundation of San Carlos was established in November 2019 with a $2M endowment from the City of San Carlos. Its mission is to improve the quality of life for everyone who lives, works, learns, and plays in San Carlos. Within just a few months of inception, the Foundation established the San Carlos COVID-19 Response Fund in support of nonprofits serving San Carlos community members with urgent and ongoing needs, such as food assistance, health care, mental health services, and other support to promote well-being during this crisis.

“The COVID-19 Relief Fund was established to support our community impacted by the pandemic,” said Jessica Yang, President, Community Foundation of San Carlos. “With the generous support of the Holmes Family, we’ve been fortunate to have provided emergency relief to ALL nonprofits who have applied, so far. We look forward to awarding grants with additional monies raised and being a partner in recovery.”
“When we reached out to the Community Foundation of San Carlos to help those in need during this crisis, we never anticipated how fully it would take on the effort – far exceeding our hopes and expectations,” stated City Manager Jeff Maltbie. “We are so pleased with all that this group of caring individuals has done and how lucky our community members are to have them working on their behalf. San Carlos is very fortunate to have a number of organizations, including the Community Foundation of San Carlos, supporting our residents, businesses, and nonprofits through this challenging time.”
